

Report No:2

Report to Town Hall & Facilities Committee

1. Purpose of the report

To request if the committee could look into whether the speakers in the Wesylan Hall still work and if so that a way of plugging in a microphone for speeches could be arranged.

2. Background

The Wesylan is our grand hall, and many wedding receptions are held there. Along with these there are events where a microphone would be really helpful, i.e. Malmesbury in Bloom Awards evening, Robing Ceremony and many other events, where a speech is given.

There are several speakers in the ceiling area, that I am not sure if they work but if they did, it would be a great asset to hirers of this room.

3. Proposal

To request the committee to look into this further and obtain a quote to make live the speakers and a way of using a microphone with them.

4. Risks / Financial Cost.

Costs would be if we went ahead with the quotation.

Cllr Julie Exton
